## We're Ready to Set you up with New Benefits For Small Groups... Now Go get them!

### The American College of Surgeons is pleased to announce new additions to **SMALL EMPLOYER GROUP HEALTH INSURANCE**

and valuable related insurance products now offered to Fellows of the College.

It's no secret that employees regard medical coverage as their single most important benefit. Successful small employers understand that having a high-quality medical plan can help them attract and keep valuable employees. They also realize their plan must be economical and have options that meet their particular needs.

As a Fellow, you now have access to many outstanding medical plans underwritten by reputable insurance companies . . . all rated "A" or better by A. M. Best Rating Service. These plans are designed for you, your family, and your employees and their families. With a choice of a wide selection of deductibles and co-payment options, these plans can be custom-designed for your group's needs.

**It's very easy to find out more information and/or receive a quote form on these outstanding medical insurance plans. See the Contact Information below.**
